

MEDAL OF HONOR CHARACTER DEVELOPMENT PROGRAM DATA SNAPSHOT

BACKGROUND INFORMATION

The Character Development Program uses the stories of Medal of Honor Recipients and Citizen Heroes to teach the values of integrity, courage, commitment, sacrifice, citizenship, and patriotism through age-appropriate, academically-based lessons for grades K-12. The data in this snapshot is the result of teacher surveys to program users, through the 2021-2022 school year.

WHAT TEACHERS ARE SAYING:

“The resources are outstanding and exceptional. They allow me the flexibility of using the lessons and videos and to create extended interdisciplinary activities used in my classes. The students use this knowledge and real time instruction to help them focus on being proactive and responsible citizens in our learning community and in public.”

“This program is amazing, and all educators should experience it at least once because once they experience it, they will want to use it with their kids!”

“Thank you for giving educators this fantastic character development program for free!”

“This outstanding program definitely connects to our curriculum. I have also found it effective in my Service Learning elective and surprisingly to address classroom management. Showing the vignettes can help adjust attitudes. When students witness the sacrifices made by our MOH recipients and Citizen Heroes, an awakening takes place.”

“The materials/resources have had a positive impact on my students!”
